What does my electricity usage look like?

Your charges by service over the past 13 months.

Above values represent the electricity used within the month identified.

Meter Number	Utility Type	Measurement	Previous Reading	Current Reading	Usage	Multiplied By	Read Type
WQM701-19	Electricity	kWh	01 Feb 2025: 2,779.00	01 Mar 2025: 3,047.00	268.00	1	ACT

Understanding your charges

ELECTRICITY: This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition.

DELIVERY: These are the costs of delivering electricity from generating stations across the Province to Wyse Meter Solutions then to your home or business. This includes the costs to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems. A portion of these charges is fixed and does not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use. The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business.* Wyse Meter Solutions collects this money and pays this amount directly to our suppliers.

*When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business.

REGULATORY CHARGES: Regulatory charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid.

NOTE: For a detailed explanation of electricity terms, please visit www.OEB.ca.

WATER: Water service is provided by your local municipality. You are billed at water service rates based on the amount of Water used in your unit. This rate is set by your local municipality.

WATER SERVICE FEE: This fee covers the cost of sub-metering hardware including maintenance, installation, repair, warranty, re-certification and upgrades. It also covers the cost of meter reading, billing, customer service and maintenance of accounts.

THERMAL: This is the cost of the measured heating and cooling energy consumption within your home.

THERMAL SERVICE FEE: This fee covers the cost of sub-metering hardware including maintenance, installation, repair, warranty, re-certification and upgrades. It also covers the cost of meter reading, billing, customer service and maintenance of accounts.

GAS: Gas service is provided by your local gas provider. You are billed at gas service rates based on the amount of gas used in your unit.

GAS SERVICE FEE: The gas customer charge is an amount billed to all accounts, every month, with or without gas consumption. This charge includes charges set out by your local gas distribution company and the costs incurred by Wyse for providing continuously available service, such as maintaining our system, customer information and billing.
